Creative Director: Lucia Thomas

Designer: Sean Kim

Meeting Notes:

- Preference on Mockup B, which is the one being critiqued.
- Make sure all photos are of the houseplant, not wild pothos.
- Abandon blog idea, so remove “sean’s leaf” header and “Sean Kim’s Pothos”
- Intent of website not immediately clear – change title to something straightforward like “Pothos care/info guide”
- Keep a consistent color palette of every other section alternating between dark green and cream color.
- Potentially make some of the sections separate pages instead of having two nav bars and a long scrolling home page.
